

WHERE DO NORTH BEND AND SNOQUALMIE CANDIDATES STAND ON KEY ISSUES IMPACTING VALLEY RESIDENTS AND THE SNOQUALMIE RIVER?

Remember to **VOTE** by **NOVEMBER 7th, 2023!**

Low water on the Snoqualmie River

WOULD YOU LIKE TO KNOW WHERE CANDIDATES STAND ON THE FOLLOWING QUESTIONS?

Contact the candidates below* through their websites (or emails if you have them). ASK THEM:

1. Where do you stand on adding additional residential growth?
 - a. We've already had too much residential growth
 - b. Leave growth where it is currently – do not add more developments
 - c. How much would you increase residential growth – by what percent of current growth? (1% - 25%)

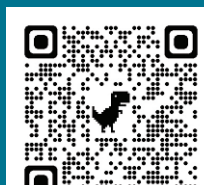

2. Where do you stand in terms of adding major projects that will impact the river and our water supply?
Please comment specifically on the following:

- a. The North Bend National Guard facility is projected to consume water equal to 398 homes. It would include a munitions depot with an undisclosed blast zone, a Chinook helicopter pad, a large parking lot for 6,700 vehicles and pieces of equipment and a training facility.
- b. The Snoqualmie Mill development would be built on land currently ranked among the most contaminated in the state. The city estimates it will consume water equivalent to 800 – 1,500 homes and will require upgrades to Snoqualmie roads and bridges to handle the increased automotive and trucking traffic.
- c. Other proposed or planned projects that would impact our river, residents and water supply.

What do you think? Share your thoughts with the candidates and with us!
